

Calling 112 or 999

Ring **112 or 999**

Free, from any phone

Stay calm and speak clearly.

What they will ask you

- 1 **Which service?** Gardaí, ambulance, fire brigade or coast guard.
- 2 **Where?** The address and Eircode, a landmark, and how to find you. On a mobile, say the county.
- 3 **What has happened?** How many people, and any injuries.
- 4 **Your phone number**, so they can ring you back.

Then

- Stay on the line. Hang up only when they tell you to.
- Hear a “busy” message? Don’t hang up. If you ring again, you go to the back of the queue.
- Answering their questions doesn’t slow the ambulance down.
- At home? Unlock the door, and put pets in another room.
